**INTERESTED IN A FLOWER VENDING MACHINE? – ALL US NOW!**

**RAPA – experience that builds trust**

**+48 790 444 619**

For over 50 years, we have been operating in the refrigeration industry, providing reliable solutions for the floristry, food, gastronomy, confectionery, and hospitality sectors. Our factory in Lublin is a place where tradition meets modernity — we design and manufacture refrigeration, heating, and freezing equipment, catering tables, and neutral complementing furniture.

#### What sets us apart are:

- Precision workmanship
- High reliability
- Modern design and functionality
- Energy efficiency

Thanks to the manufacturer's professional service advice and our openness to the individual needs of customer, we have earned the trust of hundreds of companies in Poland and abroad.

Are flowers your passion and do you want to offer your customers the highest quality beauty? You put a lot of effort into creating unique arrangements, but feel they're not properly showcased and wilt too quickly? We offer you devices that not only beautifully display your flowers but also extend their freshness!

## FLOWERS COOLERS - extend flower freshness up to 6 times - the perfect solution for florists and shopping centers

Model **AK**

Model **AKM**

width 120,5; 140,5; 160,5;  
180,5; 200,5; 220,5 cm  
depth 74,5 cm  
height 199 cm

In the **AKM** model, you can install **adjustable horizontal shelves** or **shelves with containers**.  
In the **AK** model, you can hang ready-made arrangements on a crossbar or display them on additional **hanging shelves**.

All flower coolers models are also available with an **energy-efficient inverter compressor**, which can **save up to 50% on electricity!**

Grinded **stainless steel housing** with a brushed finish — we can **paint** it for you.

A **platform for the flower cooler** can make it more comfortable for you to use.

More about flower coolers at [rapa.pl/en](http://rapa.pl/en)

We have verified the quality of the flowers with a **freshness durability test**.

We put it to the test! Three flower varieties were divided into two groups. The first group was placed in our flower coolers, while the second was kept at room temperature. **The flowers stored in the flower cooler stayed fresh and healthy for up to 18 days after purchase.**

depth 95 cm  
height of the closed counter 118 cm  
height of the open counter 191 cm

Buckets for flower are not included in the offer.

## Gábor Nagy a RAPA Product Ambassador!

Gábor Nagy is a Hungarian florist who creates floral decorations and leads workshops and artistic shows across the country.

In 2017, he won the Youth European Championship at the Eurofleurs - floristry competition and earned the title of Hungarian Floristry Champion. In 2022, he took the silver medal at the European Floristry Championships – Europa Cup 2022 in Katowice. The year before, Gábor ordered a flower cooler for flowers from RAPA for his family florist shop.

He came to us seeking a solution to the common problem of quickly wilting flowers faced by many contractor in the floral industry.

In 2023, Gábor Nagy became a RAPA Product.

**“...if you want to throw away fewer flowers, especially in summer, but of course also throughout the year, and you want to buy a useful product that is good for cut flowers and will also decorate your shop, I highly recommend RAPA flower coolers.”** Gábor Nagy

## European Floristry Championships Europa Cup 2022

In 2022, we proudly become official sponsor of the European Floristry Championships – Europa Cup 2022 in Katowice.

The championship title and the prize of a RAPA flower cooler were awarded to Dutch representative Hanneke Frankema. The runner-up was Hungarian florist Gábor Nagy.

Hanneke is an acclaimed florist, having won the Dutch National Floristry Championships in 2018 and the World Flower Cup in Barcelona in 2012.

In 2023, the flower cooler was delivered to Hanneke Frankema's newly built studio, where it ensures the freshness and quality of the flowers stored inside and helps improve the florist's daily work.

## National Floristry Competition Romanian Floral Design Cup 2020

The mission of the Romanian Floral Design Cup is to support florists, highlight their value and professionalism – their artistic craftsmanship.

This goal is also in line with RAPA's vision – to create devices that extend and emphasize the beauty of floral compositions, combining practical and aesthetic goals.

Our flower cooler provided the setting for the works of floristry masters.

In the 2020 edition of the competition, Emirhan Sungu from Romania was declared the winner.

We were pleased to fund a flower cooler for him, which will help him spread his wings and open his first florist's shop.
